

FANUC Welding robot

General Specifications:

- **Type:**
- **Manufacturer:** FANUC
- **Model:** ARC Mate 120iC
- **Manufacturing date:** 2010

Specifications:

Designed for precision welding and cutting. High speed with heavy pieces, this standard 6 axis version has the power to improve efficiency in diverse welding and cutting of all sorts

6 axis

Reach: 1811mm

Load capacity: 20 kg

AC Servo motor

Model BiSR1/6000

Spec. A06B-0116-B855#0048

Output 0,5 kW COnT. IEC60034-1

Volt 172 V

Freq. 400Hz.
